---

## Objective

A highly motivated and proactive computer science graduate seeking an internship as a **React JS Developer**. With hands-on experience in building responsive web applications using the **MERN stack**, I am eager to contribute to a dynamic development team while further honing my skills in front-end development, particularly in React JS.

---

## Education

**Sri Sathya Sai Institute of Higher Learning**, Andhra Pradesh

**BSc (Hons) in Computer Science**

**Graduated:** May 2025

### Key Subjects Studied:

- Data Mining
  - Statistics
  - Linear Algebra
  - Computer-Oriented Numerical Analysis
  - Data Structures and Algorithms using C
- 

## Technical Skills

### Web Development:

- **MERN Stack**
- **Version Control:** Git, GitHub
- **Others:** REST APIs, Responsive Web Design, Redux (state management)

### Programming Languages:

- C, C++, Python, JavaScript, Java

### Data Analysis & Tools:

- Python for Data Analysis
  - SQL for querying databases
  - Basic knowledge of Data Mining techniques
-

## Project Experience

### 1. Portfolio Website (React JS Project)

- Developed a fully responsive **portfolio website** using **React JS** to showcase my skills and projects.
- Integrated GitHub repositories and a contact form using React's state management.
- Hosted the portfolio on **GitHub Pages** for easy access and presentation.

### 2. Real-Time Chat Application (React JS)

- Created a real-time chat application using **React JS** for the front end and **Socket.io** for real-time communication.
- Added features such as live message updates, user authentication, and multiple chat rooms.
- Focused on intuitive **UI/UX design** for enhanced user interaction and ease of use.

---

## Leadership & Extracurricular Activities

### House Vice-Captain (Aca.Year 2024-25)

- Led a group of over 100 students, managing team activities and coordinating academic events.

### Self-Reliance Department (College & Hostel Management)

- Managed college sessions and hostel discipline, ensuring adherence to rules and punctuality among students.

---

## Soft Skills

- **Leadership:** Proven ability to lead teams and organize academic and extracurricular activities.
- **Time Management:** Effectively managed responsibilities in college and the hostel self-reliance department.
- **Communication:** Strong verbal and written communication skills developed through team leadership and project collaborations.
- **Problem-Solving:** Practical experience solving real-world coding and algorithmic challenges in academic projects.

---

## Additional Interests

- Passionate about learning new technologies and improving coding skills.
- Interested in exploring new frameworks and libraries in the web development ecosystem.
